

ABSTRACT OF THE DISCLOSURE

An electronic directory of phone numbers, a mobile terminal having the same, and a management method thereof.

5 The electronic directory of phone numbers includes a plurality of graphic icons; and a plurality of phone numbers respectively linked to the plurality of graphic icons. The plurality of graphic icons form a graphic map. The graphic map includes a community configured by the icons. Each of
10 the icons is updated according to a call history based on a phone number mapped thereto.
